Convenient:

No keys to hide, lose, carry or forget. We've taken the quality, control and advanced technology of our commercial keypad locks and redesigned them for residential use. Schlage Keypad Locks and Deadbolts install in minutes with just a screwdriver. They are pre-programmed at the factory with two user codes and come complete with a premium 9-volt battery. There is no need to specify door handing; all keypad products will work on both left-hand and right-hand doors.

Secure:

Who else but Schlage could provide unsurpassed protection that's tailored to today's modern lifestyle? Now there is a perimeter security option that will allow homeowners the flexibility to add, delete, or change user codes in seconds. Schlage Keypad Locks can also be used inside the home to improve safety and add protection with keyless convenience. Ideal for entry doors, garage doors, home offices, utility rooms, storage rooms, cleaning closets and more.

Stylish:

Schlage Keypad Locks and Deadbolts are available in two popular family designs – Plymouth and Camelot – with knob and lever styles, as well as finishes to complement any décor. We have a complete offering of interior and exterior solutions including Keypad Locks, Keypad Deadbolts and Keypad Front Entry Sets.

Freedom:

Schlage Keypad Locks and Deadbolts are engineered to the highest industry standards, and are backed by one of the best warranties in the business. Schlage is a leader in customer satisfaction and is the brand most trusted by security professionals, builders and remodelers. Designed around today's modern lifestyle, Schlage brings an entirely new level of security, safety and protection to the residential environment, providing end users with the convenience of keyless access that's simple and affordable.
